

1- Product identification :

Product Name: Id-Fungi Plates. Culture medium for molds and dermatophytes.

Trade Name: Id-Fungi plates.

Manufacturer: CONIDIA SAS

Supplier: CONIDIA SAS

Parc d'activités en Chuel
Route de Chasselay
69650 Quincieux
FRANCE

2- Risk identification :

2.1 Classification of the substance or mixture

2.1.1 Classification according to the ordinance (EC) N ° 1272/2008 [CLP]

The mixture is classified as non-hazardous according to EC Regulation No. 1272/2008 [CLP]

2.2 Label elements

2.2.1 Labeling according to Regulation (EC) No. 1272/2008 [CLP]

The product is not subject to labeling in accordance with EC Directives or respective national laws

3- Composition / information on components:

3.1 Substances

Mix of various components.

3.2 Mixtures Hazardous components

None of the substances contained in this mixture are present in concentrations higher than the values laid down in Annex II of European Regulation No 1907/2006.

4- First aid:

4.1 General Remarks :

If in doubt or if symptoms occur, seek medical advice.

In case of loss of consciousness, place the person in a lateral safety position and consult a doctor. If the victim is unconscious or has cramps, do not give him anything to eat. Change soiled or impregnated clothes. Do not leave the victim unattended.

In case of inhalation

Remove victim to fresh air, keep warm and at rest. In case of breathing difficulties or apnea, resort to artificial respiration. In case of irritation of the respiratory tract, consult a doctor.

In case of contact with the skin

After contact with skin, wash immediately with plenty of water and soap. Remove contaminated, impregnated clothing immediately. In case of skin reactions, consult a doctor.

In case of contact with eyes

In case of contact with eyes, rinse immediately with plenty of running water, holding eyelids apart for 10 to 15 minutes. Consult an ophthalmologist. Protect the uninjured eye. Remove contact lenses, if present and easy to do. Continue rinsing.

En In case of ingestion

If swallowed, rinse mouth with plenty of water (only if the person is conscious) and call doctor immediately. DO NOT induce vomiting. Do not give anything to drink or eat.

4.2 Most important symptoms and effects, both acute and delayed

No data available.

4.3 Indication of any immediate medical attention and special treatment needed

No data available

4.4 Personal protection of the rescuer

First aid: take care of your personal protection!

4.5 Data for the doctor

No data available

5- Fire-fighting measures:

5.1 Fire-fighting measures

Suitable extinguishing media

The product itself is not combustible. Adapt extinguishing measures to the surrounding environment

Extinguishing media not recommended for safety reasons

No restriction

5.2 Special hazards arising from the substance or mixture

No data available

5.3 Advice to firefighters

DO NOT fight the fire when fire reaches explosives. In case of fire: Use self-contained breathing apparatus.

5.4 Various indications

Do not discharge firewater into public pipelines or water bodies. Do not inhale explosion and fire gases. Be careful when using carbon dioxide in confined spaces. Carbon dioxide can drive out oxygen. Use a jet of water to cool containers exposed to fire and to protect personnel.

6- Measures to be taken in case of accidental dispersion

6.1 Personal precautions, protective equipment and emergency procedures

In case of major fire and large quantities: Evacuate people to a safe place. Wear self-contained breathing apparatus and chemical protection suit.

6.2 Precautions for the protection of the environment.

Avoid penetration into the soil / subsoil. Do not vent into drains or surface water.

6.3 Methods and material for containment and cleaning

Never pour spilled material into original containers for recycling. Collect in the dry state with care. Avoid dust formation. Thoroughly clean soiled surfaces and objects in accordance with environmental regulations. Collect in appropriate and closed containers for disposal.

6.4 Various indications

Immediately dispose of spilled quantities.

7- Handling and storage

7.1 Precautions for safe handling

void: Inhalation Avoid contact with skin and eyes. Use a fume hood (laboratory). When exposed, use devices equipped with a local ventilation system. If local ventilation is not possible or insufficient, install technical equipment that provides adequate ventilation for the entire work area. Protect from moisture.

7.2 Conditions for safe storage, including any incompatibilities

Storage temperature: 02-08 ° C.

Keep containers tightly closed in a well-ventilated place.

7.3 Specific end use(s)

No data available

8- Exposure control / personal protection

8.1 Control settings

Contains no substance in concentrations exceeding the limits set for workstations.

8.2 Exposure control

8.2.1 Appropriate technical control devices.

Technical measures and the application of adequate working methods have priority over the use of personal protective equipment. When exposed, use devices equipped with a local ventilation system.

8.2.2 Personal protection

Wear appropriate protective clothing.

When handling chemical substances, wear only appropriate protective clothing with CE marking, including a four-digit control number.

To protect yourself from direct contact with the skin, it is necessary to wear body protection (in addition to the usual work clothes). Eye / face protection Safety glasses with side protections DIN / EN: DIN EN 166. Skin protection When handling chemical substances, wear only suitable gloves with CE marking, including a four-digit control number. Recommended glove models DIN / EN: DIN EN 374 If gloves are to be reused, clean before removing and store in a well-ventilated place..

In case of brief skin contact Suitable material: NBR (Nitrile rubber) Thickness of the glove material: 0.12 mm Break through time (maximum wearing time):> 480 min. In case of frequent contact with the hands Suitable material: NBR (Nitrile rubber) Thickness of the glove material: 0.38 mm Breakthrough time (maximum wearing time):> 480 min.

Respiratory protection. In principle, no need for personal respiratory protection. Suitable respirator: Recommendation: no data available Suitable material: no data available Recommendation: no data available Additional information Wash hands before breaks and at the end of work. Avoid contact with skin and eyes. Do not eat, drink or smoke while using. An eyewash station is installed and its location prominently in view.

8.2.3 Control of environmental exposure

No data available.

9- Physical and chemical properties

9.1 Data on essential physical and chemical properties

- a) appearance condition: solid color: brown
- b) odor: no data available
- c) odor threshold: no data available Safety data
- d) pH: 5.4-5.7
- e) melting point / freezing point: no data available
- f) initial boiling point and boiling range: no data available
- g) flash point: no data available
- h) Evaporation rate: no data available
- i) flammability (solid, gas): not applicable
- j) upper / lower flammability or explosive limits Lower explosion limit: no data available Upper explosion limits: no data available
- k) vapor pressure: no data available
- l) vapor density: no data available
- m) relative density: no data available
- n) solubility (ies) at 20 ° C: no data available Soluble (g / L) in: no data available
- o) partition coefficient: n-octanol / water: no data available
- p) auto-ignition temperature: no data available
- q) decomposition temperature: no data available
- r) viscosity Viscosity, kinematic: no data available Viscosity, dynamic: no data available
- s) explosive properties: not applicable
- t) oxidising properties: not applicable

9.2 Others Data

Apparent density: no data available
Refractive index: no data available
Dissociation constant: no data available
Surface tension: no data available
Henry's Constant: no data available

10- Stability and responsiveness

10.1 Reactivity

No known reactivity under normal use and storage conditions.

10.2 Chemical stability

The production is chemically stable under standard ambient conditions (room temperature).

10.3 Possibility of hazardous reactions

No known reactivity under normal use and storage conditions.

10.4 Conditions to avoid

No data available

10.5 Incompatible materials

No data available

10.6 Hazardous decomposition products

No data available

10.7 Various indications

No data available

11- Toxicological information

11.1 Information on toxicological effects

Acute effects Acute oral toxicity: no data available

Acute dermal toxicity: no data available

Acute inhalation toxicity: no data available

Irritant and caustic effect Primary skin irritation: not applicable

Eye irritation: not applicable

Respiratory irritation: not applicable

Respiratory or skin sensitization in case of skin contact: not sensitizing

In case of inhalation: non-sensitizing

Specific target organ toxicity - single exposure not applicable

Specific target organ toxicity - repeated exposure not applicable

CMR effects (carcinogen, mutagenic and toxic for reproduction) Carcinogenicity: no indication as to carcinogenicity to humans.

Germ cell mutagenicity: no indication of mutagenicity of gametes on available human.

Reproductive Toxicity: No indication of human reproductive toxicity available.

Aspiration hazard: not applicable

Other adverse effects no data available Additional information no data available

12- Ecological informations

12.1 Ecotoxicity

Acute (short-term) toxicity to fish: no data available Chronic (long-term) toxicity to fish: no data available Acute (short-term) toxicity to daphnia: no data available Chronic toxicity (long-term) daphnia: no data available Acute (short-term) toxicity to algae: no data available Chronic (long-term) toxicity to algae: no data available.

12.2 Persistence and degradability

No data available

12.3 Potential for bioaccumulation

partition coefficient: n-octanol / water: no data available

12.4 Mobility in the soil: No data available.

12.5 PTB / vPvB assessment results

No data available.

12.6 Other harmful effects

No data available.

13- Disposal instructions

13.1 Waste treatment methods

Proper disposal / Product: Dispose in accordance with administrative regulations. For disposal of the waste, contact the authorized waste disposal service.

Waste code product: no data available

Proper disposal / Packaging: Dispose in accordance with administrative regulations. Contaminated packaging must be treated as the substance.

Additional information: no data available

14- Transport information

This product is not a hazardous product under this transport regulation.

15- Regulatory information

15.1 Safety, health and environmental regulations / legislation specific for the substance or mixture

General provisions

Water Hazard Class (WGK):

EU: Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), establishing a European Agency for Chemical Products, amending Directive 1999/45 / EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 and Directive 76/769 / EEC of Council and Commission Directives 91/155 / EEC, 93/67 / EEC, 93/105 / EC and 2000/21 / EC

EU: Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on the classification, labeling and packaging of substances and mixtures, amending and repealing Directives 67/548 / EEC and 1999/45 / EC and amending Regulation (EC) No 1907/2006

EU: Commission Regulation (EU) No 453/2010 of 20 May 2010 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation and Authorization of Chemicals , and the restrictions for these substances (REACH) 15.2 Chemical Safety Assessment

The information in this safety data sheet corresponds to our current knowledge at the time of printing. This information is intended to provide a reference point for safe handling of the product subject of this safety data sheet, in particular with regard to its storage, processing, transport and disposal. The indications are not applicable to other products. Insofar as the product is mixed or used with other materials, this safety data sheet is not automatically valid for the material thus produced
